

## Non-ionic spreader/sticker surfactant/adjuvant for insecticide, fungicide, herbicide

### Principal Functioning Agents:

Polymer Blend of Resins, Fatty Acids, and Peroxylated Phenols	16.9%
Inert ingredients	83.1%
<b>TOTAL</b>	<b>100.0%</b>

## CAUTION

**Keep out of reach of children  
Do not get on eyes, skin, or clothing**

**TIMBERLINE** is an adjuvant used with the application of herbicides and insecticides in Rights-of- Way, Aquatic and Forest Vegetation Management chemicals.

It enhances the effect of the pesticide in controlling unwanted trees, brush, weeds and other competing forest vegetation.

In using these chemicals, special care must be used near residential areas to protect desirable vegetation from damage by pesticide drift or runoff.

**TIMBERLINE** excels at Drift Control.

The ingredients in **TIMBERLINE** provide a combined effect of wetting, sticking, spreading and penetration of fungicide, insecticide, or herbicide.

As a general rule, adjuvants are applied to the tank mix; however, since **TIMBERLINE** is self-emulsifiable it can also be incorporated in herbicide or insecticide emulsifiable concentrates for use in low-volume formulations.

**TIMBERLINE** is a multipurpose adjuvant that has non-ionic surfactants that make it compatible with most of today's forestry chemicals.

**TIMBERLINE** surfactant action helps to keep the solution in suspension, reduces surface tension, giving spray an even coverage.

**TIMBERLINE** cuts leaf wax and increases the penetrations of spray.

**TIMBERLINE** reduces foam, controls drift of spray solutions, helps stick spray solutions to the target.

**TIMBERLINE** helps place spray on target, creates uniform droplets for more efficient coverage. This results in Greater deposition for efficient control.

- Controls drift of spray solutions
- Helps stick spray solutions to the target

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use but neither this warranty nor any other warrant of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to Seller And Buyer assumes the risk of any such use.

## MIXING INSTRUCTIONS

Add **TIMBERLINE** to the spray tank with good agitation, after all other spray materials have been added.

READ → **"ADD  
TIMBERLINE  
LAST"** ← READ

## DIRECTIONS FOR USE

**Dosage 1 Quart Per 100 Gallons of Spray Mix**

**For use with Fungicides, Herbicides,  
Insecticides, and Wettable Powders.**

**Same rate applies when using Timberline for  
'DRIFT CONTROL'**

These directions for use do not constitute a recommendation to use any toxicant in any manner contrary to the directions of the manufacturer.

NOTE: The above use recommendations are considered to be adequate for most uses. Some pesticides, however may require higher rates for optimum effect. Follow pesticide label directions when this occurs.

## GENERAL INFORMATION

**TIMBERLINE** is a self-emulsifiable spreader, surfactant adjuvant designed to improve the efficiency of herbicide, insecticide, and fungicide sprays by increasing contact activity, penetration, and adhesion to plant surfaces. In addition, Timberline provides superb 'Drift Control' at the same rate.

### STATEMENT OF PRACTICAL TREATMENT

If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least fifteen minutes. Seek medical treatment immediately. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek medical treatment immediately.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Follow all governmental procedures for the disposal of pesticide spray solutions. Triple rinse container; empty rinsate into spray tank. Dispose of empty container according to approved local practices; contact county agricultural commissioner for disposal information.
