

**BEFORE USING THIS PRODUCT,
READ ALL PRECAUTIONS, DIRECTIONS FOR USE,
CONDITIONS OF SALE,
LIMITED WARRANTY AND LIMITATIONS
OF LIABILITY AND REMEDIES.**

STORAGE: Do not store with food, or other materials to be used or consumed by humans or animals. Store in a cool, dry area. Do not contaminate water supplies, lakes streams or ponds with this product. Replace cap and keep container closed when not in use.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed, by burning. If burned, stay out of smoke.

FIRST AID MEASURES: Inhalation: Move to fresh air. If irritation persists, seek medical treatment.

IF SWALLOWED: DO NOT INDUCE VOMING: Drink large quantities of water. Never give anything by mouth to an unconscious person. Get medical attention immediately.

IF in EYES: Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Get medical attention immediately.

IF on SKIN: Immediately flush skin with plenty of soap and water. Remove contaminated clothing and shoes. Get medical attention if irritation is noticed.

TREBLE is a unique blended liquid polymer slow release agent designed to be added to UAN solutions to improve nitrogen efficiency by encompassing the UAN with the **TREBLE** and hooking it to the soil. The UAN is then available in the soil/root zone for a longer period of time than UAN alone.

TREBLE maintains UAN availability for your crops. Its slow release polymer formula blend hooks the UAN to the soil and releases it during essential stages of plant root development.

Without **TREBLE**, UAN loses its ammonia at a faster rate after application to the soil. **TREBLE** mixes with the UAN and holds onto the UAN in the spray process and allows the mixture to hook to the soil. This process reduces nitrogen loss through leaching and keeps the nitrogen longer in the soil.

**LIQUID POLYMER SLOW RELEASE AGENT
For UAN SOLUTIONS**

For 28%-32% UAN Solution

Principle Functioning Agents:
Perpoxyated Phenol Polymer Resin Mixture.....100%

CAUTION:
KEEP OUT OF REACH OF CHILDREN.
DO NOT GET ON EYES, SKIN OR CLOTHES.
READ THE MATERIAL SAFETY DATA SHEET BEFORE
USING THIS PRODUCT.

Proudly Made in the U.S.A.

Manufactured By:
Atlantic Pacific Trading Co.,
625 Plumas Street
Reno, NV 89509

NET CONTENTS: 2.5 GALLONS

DIRECTIONS FOR USE :

Application Recommendation for UAN. - **TREBLE** is effective in 28%, 30% or 32% UAN at a rate 3 Quarts per ton.

Add **TREBLE** to the UAN solution while mixing, agitating and recirculating. Add **TREBLE** prior to adding pesticides or surfactants. Use Personal Protective Equipment (PPE), NIOSH/MSH respirator and neoprene gloves during handling. If possible, keep solution agitated at all times. At any time, if the rig is left unattended or not agitated, it is desirable to agitate the mixture before use. **TREBLE** is designed to stay in solution/suspension once it is initially agitated, however, due to conditions beyond control, some tanks may be dirty, causing the mixture to be unbalanced. Other conditions, such as alternating cold spells can be a factor in a mixture not staying in solution. Spray mixture of **TREBLE** and UAN solution through a minimum spray nozzle of .020 inch (14US mesh). A 20 or 50 US mesh screen can be used. Generally, there are no re-entry restrictions unless used with other agriculture chemicals that may have such requirements. Observe all precautions on label and read material safety data sheet before use.

**CONDITIONS OF SALE
LIMITED WARRANTY AND LIMITATIONS OF
LIABILITY AND REMEDIES**

Read the conditions of Sale Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened and the full price will be refunded.

The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Atlantic-Pacific Trading Company (APTC) or the seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment.

APTC warrants that this product conforms to its chemical description and is reasonably fit for the purpose referred to in the directions under normal conditions of use, but neither this warranty nor other warranty of merchantability or fitness for a particular purpose, express or implied, extended to the use of this product contrary to label instructions, or under abnormal conditions. The exclusive remedy against APTC for any cause of action relating to the handling or use of this product shall be limited to, at APTC's elections, one of the following: 1) Refund of the purchase price paid by buyer or user for product bought, or 2) Replacement of the product. To the extent allowed by law, APTC shall not be liable and any and all claims against APTC are waived for special, indirect, incidental or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. APTC and the seller offer this product and the buyer and user accept it, subject to forging conditions of sale and limitation of warranty, liability and remedies.
